

HACKATHON CONCEPT

IQOO CREATOR STUDIO

Turn the phone into the editing hardware.

PRODUCTIVITY / OPEN INNOVATION

TRACK: MOBILE CREATOR TECH

THE CREATOR IS STUCK BETWEEN PORTABILITY AND CONTROL.

CONSTRAINT 01

MOBILE EDITING

Immediate and portable, but precision work becomes a thumb-versus-timeline problem. Touchscreens lack tactile feedback.

CONSTRAINT 02

DESKTOP EDITING

Powerful and precise, but the creator is tied to a fixed setup and bulky peripherals. Hinders spontaneous creativity.

CONSTRAINT 03

CLOUD FIRST AI

Convenient for automation, but introduces dependency on bandwidth, remote servers, and mandatory accounts.

THE UNMET NEED

A workflow that is fast, tactile, local, and truly portable.

THE PRODUCT INSIGHT CHANGE

PHONE = EDITING HARDWARE

PHONE

Intelligence + tactile control surface.

LAPTOP

The high-resolution visual canvas.

NPU

Local AI acceleration for real-time edits.

OFFICE KIT

The seamless bridge between capture and finishing.

HARDWARE REF: SNAPDRAGON 8 ELITE MOBILE PLATFORM

TWO MODES, ONE EDITING ENGINE.

ON-THE-GO MODE

📱 Phone is the complete offline editor

↻ Haptic jog wheel for frame-level control

⚡ BeatSnap: Local AI audio analysis

Offline-first export workflow

PHONE = COMPLETE OFFLINE EDITOR

Portable capture-to-cut workflow with BeatSnap analysis, haptic jog control, and offline-first export.

STUDIO MODE

💻 Laptop becomes the 4K preview canvas

🎮 Phone becomes the Creator Deck

⚙️ Context-sensitive tactile controls

🖐️ Haptics confirm markers and cuts

PHONE = CREATOR DECK

Laptop becomes the visual canvas while the phone provides context-sensitive tactile controls and haptic confirmation.

UNIFIED ENGINE

Timeline state, audio maps, color parameters, and effects stay consistent across both modes. Move the edit, not the media.

BEATSNAP TURNS RHYTHM INTO EDIT DECISIONS.

PHASE 01 INPUT

RAW MEDIA

Raw clips + music track loaded into the local pipeline.

PHASE 02 ANALYSIS

TRANSIENT MAP

On-device audio feature mapping without cloud dependency.

PHASE 03 INTELLIGENCE

CUT POINTS

Lightweight ML model proposes beat-aligned editing suggestions.

PHASE 04 CONTROL

JOG WHEEL

Creator accepts or nudges suggestions with tactile precision.

HACKATHON PROOF POINT: MEASURABLE ON-DEVICE AI PERFORMANCE

TARGET: NPU ENGINE | 50MS INFERENCE | 45% EFFICIENCY

CREATOR DECK: THE PHONE AS AN INSTRUMENT

BUILT FOR HOW INDIA CREATES.

\$100B+

MARKET OPPORTUNITY

India's creator economy projected to exceed \$100 billion by 2030.

90%

REGIONAL PREFERENCE

New internet users operate across regional language ecosystems.

83%

GEN Z CREATORS

Majority of Gen Z in India identify as creators, led by small-town innovators.

Tier 2/3

GROWTH ENGINE

Professional editing shouldn't require a high-end studio environment.

A MULTILINGUAL CREATIVE ECOSYSTEM

HINDI

TAMIL

GUJARATI

THE MARKET WEDGE: FROM INDIA'S CREATOR ECONOMY TO IQOO

A focused entry point into India's mobile-first creator workflow

TAM = India's creator economy | SAM = mobile-first video creators | SOM = iQOO creators who adopt Creator Studio

START WITH IQOO CREATORS. BUILD FOR INDIA'S CREATORS.

THE PRODUCT OPPORTUNITY IS BIGGER THAN AN EDITING APP.

01 FREEMIUM

CREATOR SOFTWARE

Free core editing with premium AI features and professional controller layers.

02 MARKETPLACE

PRESET ECOSYSTEM

.iqoo recipe templates, color grades, beat packs, and creator workflow packs.

03 HARDWARE

DIFFERENTIATION

High-value iqoo devices + Office Kit become essential creator hardware.

04 COMMUNITY

PARTNERSHIPS

Distribution through influencers, editing communities, and creator academies.

TRANSFORMING IQOO FROM A DEVICE BRAND INTO A **CREATOR-PLATFORM ECOSYSTEM**

WHY SHOULD IQOO BUILD THIS?

DEVICE DIFFERENTIATION

Turns NPU, haptics, and display into a visible, tactile creator advantage.

CREATOR POSITIONING

Builds a dominant relationship with India's massive and growing creator community.

ECOSYSTEM STICKINESS

Office Kit evolves from productivity tool into a professional creative necessity.

PREMIUM DEVICE VALUE

Demonstrates why high-performance hardware matters for real-world creator work.

HARDWARE CAPABILITY

CREATOR EXPERIENCE

COMMUNITY ADOPTION

BRAND IDENTITY

FROM HACKATHON PROTOTYPE TO CREATOR PLATFORM.

STAGE 1

HACKATHON MVP

- > BeatSnap AI Core
- > Creator Deck Layer
- > .iqoo QR Transfer

STAGE 2

CREATOR PRODUCT

- > Scene AI & Captions
- > Preset Marketplace
- > Voice-Assist Editing

STAGE 3

IQOO ECOSYSTEM

- > Creator Marketplace
- > Community Remixing
- > Device Optimization

Scaling the product without bloating the initial professional creator experience.

BUILD A SMALL SYSTEM THAT WORKS RELIABLY.

☰ MVP SCOPE

PRI	FEATURE	SUCCESS CONDITION
P0	Basic Editor	Local import, cut, trim, export works.
P0	BeatSnap	Fast local analysis + usable suggestions.
P0	Creator Deck	Phone controls laptop via Office Kit.
P0	.iqoo QR	Recipe scans and reconstructs offline.
P1	Color Dials	Tactile exposure/saturation control.

▶ 3 MINUTE DEMO

- 0:00-0:25** PROBLEM
Show the pain of manual mobile editing.
- 0:25-1:00** BEATSNAP
Load clips + song; trigger BeatSnap AI.
- 1:00-2:00** STUDIO
Connect Office Kit; phone becomes Deck.
- 2:00-3:00** RECIPE
Export .iqoo QR; rebuild on second device.

"WE DID NOT MAKE THE PHONE A SMALLER DESKTOP EDITOR. WE MADE THE PHONE THE EDITING HARDWARE."

WHAT THIS UNLOCKS FOR THE IQOO COMMUNITY.

STUDENTS

Affordable entry into professional-style editing workflows without high-end studio gear.

CREATORS

Mobile-first production with the precision and speed of a dedicated desktop setup.

GAMERS

Fast extraction of clips and beat-synced highlight reels for instant social sharing.

TECH COMMUNITY

A native, high-performance use case for iQOO's NPU, Office Kit, and haptic hardware.
